• RESTful API • Flutter • React • VS
code • Git • Android Studio • Django •
Spring Boot

Interests

- CHESS
- TEACHING
- CRICKET
- MATHEMATICS

Work Experience

• ACCENTURE - JAVA FULL Stack Developer

ADVANCE APPLICATION ENGINEERING ASSOCIATE

CURRENTLY WE USE JAVA, SPRINT BOOT AND JSP.

📅 Dec 2022 - Present

📍 Mumbai, India

Projects

• ALGO TRADING SOFTWARE - Algo Trader

📅 Dec/2022 - Jan/2023

• **Uses** :- This program can Give Intraday calls to buy a share or sell a share on the basis of some profitable strategies which where back-tested.

• **TechStack Used** :- Python, multi threaded programming, yfinance, 5-ema strategy

• **Future** :- I will try to work a more on this project and will make more accurate ,fast and want to implement price action in it.

• ROAD SAFETY MANAGE SYSTEM - RSMS Project

📅 Dec/2021 - Mar/2022

• **Uses** :- More than vehicle counting. This project provides prediction for speed, color and size of the vehicles.

• **Techstack Used**:- Python, TensorFlow, Yolov4, Jupyter

• **Future**:- I will try to implement a system that will send the challan to persons who break the traffic rules.

• MULTI VENDOR APP USING FLUTTER - A Flutter App

📅 Feb/2021 - Dec/2021

• **Uses**:- This app is basically consist of 3 apps Delivery app, vendor app and a consumer app.

• **TechStack Used** :- Flutter, Firebase, Google API's.

• **Future** :- I have an idea related to this but new and I will use it parts to develop a new useful deployable application.

• AN E-LEARNING WEBSITE - LearnCorridor

📅 Dec/2019 - Mar/2020

• **Uses**:-This Website is made For my friends Startup for an E- learning and internship providing website.

• **TechStack Used**:-Python , Django , Javascript, Docker.

• **Future** :- As I have left Learncorridor so, my code is in my github and I have helped in backend of its new domain <https://learncorridor.in/> .

Achievements

- A District Level Chess Champion.
- SilverZone Maths Olympiad Winner at District level, 36th rank among the state's and 631 rank Internationally.
